EDUCATION

ITM Skills University

Bachelor of Technology in Computer Science Engineering; CGPA: 8.99/10

August 2024 – July 2028

Mumbai, India

EXPERIENCE

LetsUpgrade

Dec 2024 – Jan 2025

Software Developer Intern

Navi Mumbai, India

- Designed and delivered full-stack curriculum modules covering JavaScript, React, and Node.js for a cohort of **4M+ active learners**, improving module completion rates through structured hands-on exercises.
- Reviewed and debugged student project submissions across MERN-stack tracks, providing structured feedback that reduced recurring technical errors by an estimated **25%** across batches.
- Collaborated with the engineering and curriculum teams to align learning outcomes with current industry practices, ensuring content stayed relevant to modern development workflows.

Desi Destiny

Sept 2025 – Present

Frontend Developer Intern

Navi Mumbai, India

- Redesigned and rebuilt the company's website using React, improving responsiveness, visual consistency, and overall user experience across devices.
- Developed reusable frontend components and optimized application performance, enhancing maintainability and streamlining feature delivery workflows.
- Tech Stack: **React.js, JavaScript, Tailwind CSS, REST APIs, Git, Vercel.**

PROJECTS

Sahayak Navigator – Assistive Navigation for the Visually Impaired | [Live Demo](#)

- Built a voice-guided urban navigation system for visually impaired users featuring real-time obstacle detection, contextual audio feedback, and emergency alert triggers for high-traffic Indian environments.
- Integrated a computer vision pipeline for hazard recognition, reducing navigation errors and providing actionable spoken instructions with sub-second response latency.
- Tech Stack: **React, Node.js, Computer Vision (OpenCV), Voice API, AWS, Vercel.**

Data Migration CLI Tool | [GitHub](#)

- Engineered a Node.js CLI tool automating PostgreSQL-to-AWS database migration, cutting migration time by **40%** through parallelised data handling and shell script orchestration.
- Implemented AES encryption, automated error-recovery pipelines, and AWS S3-based scalable storage, improving overall system reliability by **30%**.
- Tech Stack: **Node.js, PostgreSQL, AWS S3, AES Encryption, Shell Scripting.**

ACHIEVEMENTS

- HackWithMumbai 2.0 Winner:** Secured **1st place** among 200+ teams for building an AI-powered assistive navigation product.
- 3× National Hackathon Finalist:** Recognised as finalist across three competitive national-level hackathons in full-stack and AI/ML tracks.

TECHNICAL SKILLS

Languages: Java, JavaScript (ES6+), TypeScript, Python

Frontend: React.js, React Native

Backend: Spring Boot, Node.js, GraphQL, REST APIs

Databases: Oracle DB, MongoDB, PostgreSQL, DynamoDB

Cloud & DevOps: AWS, GCP, Docker, Kubernetes, Terraform, GitHub Actions

AI / ML: Computer Vision (OpenCV), Machine Learning, Voice APIs, TensorFlow
