EXPERIENCE

Aneero

Full-Stack Developer Intern (AI + Backend Integrations)

Mar 2026 – Aug 2026

Mumbai, India

- Integrated **LangChain**-based LLM workflows into the MoneySphere platform, connecting AI capabilities with full-stack application services and user-facing workflows.
- Developed backend services using **Node.js** and **PostgreSQL**, implementing API integrations, data processing, and database operations for application workflows.
- Built responsive web interfaces using **Next.js**, **React.js**, and **JavaScript**, integrating frontend components with backend APIs and AI services.

Desi Destiny

Frontend Developer Intern

Sept 2025 – Feb 2026

Navi Mumbai, India

- Rebuilt the company website using **React.js**, implementing reusable UI components, responsive layouts, and frontend performance optimizations.

LetsUpgrade

Marketing & SEO Intern

Dec 2024 – Jan 2025

Navi Mumbai, India

- Optimized web pages using **on-page SEO**, **metadata optimization**, **content optimization**, and **search-engine best practices** to improve organic visibility and search performance.

PROJECTS

Sahayak Navigator – Assistive Navigation System | [Live Demo](#)

- Engineered a real-time assistive navigation system using **OpenCV** for computer vision-based obstacle and hazard detection with contextual voice feedback.
- Developed a full-stack processing pipeline using **React.js** and **Node.js**, integrating computer vision, Voice APIs, emergency alert workflows, and **AWS**-based services.

Data Migration CLI Tool | [GitHub](#)

- Engineered a **Node.js** CLI application for automated **PostgreSQL-to-AWS** database migration, reducing migration time by **40%** through parallelized data processing and shell scripting.
- Implemented **AES encryption**, automated error recovery, and **AWS S3** storage workflows to improve data security, reliability, and scalability by **30%**.

ACHIEVEMENTS

- HackWithMumbai 2.0 Winner:** Secured **1st place** among 200+ teams for developing an AI-powered assistive navigation solution.
- 3× National Hackathon Finalist:** Selected as a finalist across three national-level hackathons in full-stack development and AI/ML tracks.
